Words in Worship

Small Group Questions

1. Do lyrics from worship songs help you remain/get closer to God in your walk of faith?
2. How intentional am I in preparing my heart and mind for worship service each week and keeping my focus on the words I sing and the message I hear?
3. We stand in service about the awesome power of God. Do you live your life under that knowledge and if so, what does that look/feel like?
4. Are the lyrics from songs and music another resource you can use in building a stronger faith for your children?
5. Is it more honest before God to refrain from singing when my heart isn't aligned with the truth of the words (much like letting the communion emblems pass me by)?
